

# EGY SKATEPARK

The first professional skatepark in Egypt — 6th of October City

Dear School Administration,

We are Egy Skatepark — the first professional skatepark in Egypt, designed and built by a European company, located on Waslet Dahshur Road, minutes from Sheikh Zayed. We give children a sport that builds balance, confidence and courage — in a safe, supervised, family-friendly place.

## What we offer schools

- School trips: a full skating experience for your students — professional trainers, all safety gear included, coffee shop for teachers.
- Sports days & PE programs: weekly or monthly skating sessions as part of your activities program.
- End-of-year parties & graduation events: the park reserved for your school, music, games and skating shows.
- Special school pricing: group rates that respect school budgets, free trial visit for your activities coordinator.

## Why skating?

Skating develops balance, focus and self-confidence in ways few sports can — and children from age 4 love it from the first minute. Our trainers are professionals, gear is always included, and parents consistently rate us 4.4★ on Google.
